PROJECTS

Sochroom

- Built a React Application called Sochroom, a live audio streaming Podcasting application consisting of features like real-time chatting, automatic recording, live audience interaction, using the Agora library. It also had features to play music and sound effects in a live stream and controlling volumes of the host, music, sound effect, and the co-hosts.

Food Recipe APP

- Designed a Food Recipe Website using a 3rd Party API, and achieved backward compatibility with axios and using ES6+ for Code Reusability and limiting the changes to Object through Class.

Restraunt APP

- Designed the Frontend of a Restraunt Website with single state object using Redux and fetching the data through local json server and achieving mobile responsiveness UI design through Reactstrap in ReactJS.

WORK EXPERIENCE

Software Developer Intern

Skylar Minds, Indore

04/2021 - Present

Indore

Achievements/Tasks

- Developing real-time industry-related React Applications.
- Confer with management or development teams to prioritize needs, resolve conflicts, develop content criteria, or choose solutions.
- Built a live audio streaming and podcasting application using the Agora library with real-time chatting and recording.
- Recommend and implement performance improvements.
- Contributed to deployments by testing, debugging and resolving issues for optimal results.

SKILLS

HTML5

CSS3
